

**LEE** 85

Filter System

LEE Filters have been designing filter systems for professional photographers around the world for over 30 years. The new LEE85 system has been engineered specifically for photographers with smaller bodied cameras and lenses who need to travel light but don't want to compromise on quality and filter versatility. Made from precision engineered aluminium, the holder is small, lightweight and compact.

**Compact design. Big features.**

## Simple and intuitive

The LEE85 is packed with features, engineered to provide all the capabilities you find in our larger systems, but in a smaller package. Ease of use and functionality are inherent to LEE filter systems, which is why the LEE85 can easily be attached, adjusted and locked to the lens with just a finger and a thumb.

## Spring release and locking dial

The locking dial enables the holder to be quickly and easily attached and securely locked on to the adaptor ring. The locking dial also has three possible settings: neutral, half lock and full lock to offer full flexibility when rotating and adjusting your filters.

## Filter guides

Common with our popular LEE100 system, the LEE85 filter guides come with one, two or three slot options. The versatile guide blocks can be easily swapped so that photographers can use up to three filters.

## Re-imagined Filters

The new LEE85 ND Graduated and Standard filters feature a new grip tab, which increases the visible area and keeps finger prints off the filter zone. The LEE85 Stoppers also feature useful thumb guides to easily position the Stopper squarely within the holder.

## Clip-on Polariser

The LEE85 Polariser can be securely fitted and removed from the holder very quickly and easily, allowing for rapid adjustments in fast changing light conditions.

**Discover Kit**

- LEE85 Holder with additional spares
- LEE85 System Pouch with shoulder strap and belt loop
- LEE 0.6 Neutral Density Graduated Medium
- Lens Adaptor Ring 72mm
- Lens Adaptor Ring 67mm
- Lens Adaptor Ring 58mm

**Develop Kit**

- LEE85 Holder with additional spares
- LEE85 System Pouch with shoulder strap and belt loop
- LEE 0.6 Neutral Density Graduated Medium
- LEE Big Stopper with tin
- Lens Adaptor Ring 72mm
- Lens Adaptor Ring 67mm
- Lens Adaptor Ring 58mm

**Aspire Kit**

- LEE85 Holder with additional spares
- LEE85 System Pouch with shoulder strap and belt loop
- LEE 0.6 Neutral Density Graduated Medium
- LEE 0.9 Neutral Density Graduated Medium
- LEE Big Stopper with tin
- ClearLEE Filter Wash 50ml
- ClearLEE Filter Cloth
- Lens Adaptor Ring 72mm
- Lens Adaptor Ring 67mm
- Lens Adaptor Ring 58mm

**Deluxe Kit**

- LEE85 Holder with additional spares
- LEE85 System Pouch with shoulder strap and belt loop
- LEE 0.6 Neutral Density Graduated Medium
- LEE 0.9 Neutral Density Graduated Medium
- LEE Big Stopper with tin
- LEE85 Polariser with pouch
- ClearLEE Filter Wash 50ml
- ClearLEE Filter Cloth
- Lens Adaptor Ring 72mm
- Lens Adaptor Ring 67mm
- Lens Adaptor Ring 58mm
