THREE

Never settle
for ordinary.

Elinchrom **THREE**

Always be ready when inspitarion strikes with the supremely compact and lightweight Elinchrom THREE. With only 1,65kg, the THREE merges 261Ws of capacity with features including Li-ion battery, USB-C active charging, TTL, HSS and a streamlined touch interface into a low profile housing.

Keep a low profile

Add the versatility of an off-camera flash with the light shaping capabilities to any kit while maintaining a minimal footprint with the Elinchrom THREE. Similar in size and weight to a 70-200 zoom lens, the THREE is ready to travel with you anywhere and everywhere.

Your choice of light modifiers

Engineered to use the newly developed Elinchrom OCF modifier mount, the Elinchrom THREE is compatible with most Profoto© OCF light shapers, expanding your selection of available light shaping tools. The included EL-Profoto adapter enables quick mounting to light modifiers using the traditional Elinchrom bayonet.

Navigate swiftly

With a touchscreen interface and a newly designed menu structure, experience a streamlined access to the THREE's settings to ensure you never miss a chance to capture the moment.

Brave the elements

The Elinchrom THREE utilizes a sealed Li-ion battery for maximum portablility and enhanced protection from the elements while on location. You are not tied tot spare batteries or chargers with the ability to charge from any USB-C source.

Never loose momentum

Capable of producing 525 full-power flashes on a single charge, the THREE is ready for longer shoots. Additionally the THREE can be connected to a power source and continue shooting while charging regardless of the battery's power level, keeping your workflow uninterrupted.
